

SCHOOL DIRECTOR

Code **CB** Issued **12/02**

Purpose: To establish the board's vision for the role of the director.

We view the director's position in the center in a triple capacity.

- executive officer of the center
- leader and accountable officer for all personnel of the center
- liaison between those personnel and the board

The director is the only person in the center with whom the board normally needs to be directly involved in decisions regarding appointments of personnel. Because we believe the total responsibility for the administration of the center should rest with the director, the board has the responsibility for developing a systematic means of evaluating the director's effectiveness in implementing the objectives expressed in policies. The director has the responsibility for evaluating the effectiveness of all other center personnel.

The director, in his/her discretion, may delegate to other center personnel the exercise of any powers and the discharge of any duties imposed upon the director by these policies or by vote of the board. The delegation of powers or duties, however, will not relieve the director of responsibility for action taken under such delegation.
