

TEXTBOOK SELECTION AND ADOPTION

Code **IJJ** Issued **9/04**

Purpose: To establish the board's vision and basic structure for the selection and adoption of textbooks to be used by the center.

In adopting textbooks for use in the center system, the board must carefully consider the rights, freedoms and responsibilities of students, parents and teachers.

The board's first commitment in the selection and adoption of textbooks will be the preservation of the student's right to learn in an atmosphere of academic freedom. The board supports the rights of teachers to exercise professional judgement in their work; but, at the same time, will require teachers to balance this right with an awareness of their responsibility to meet the center's educational goals and objectives, as well as standards established by state law.

The board recognizes the rights of parents to influence the education of their children. The board will not, however, allow the wishes of any individual to infringe upon the rights of the majority of the students in any class.

Selection process

The director will be responsible for selecting and recommending to the board for adoption all basic textbooks to be used in the center's program of education.

The director, in cooperation with the instructional staff, will select texts from those on the approved list of the state department of education. The content of these textbooks will reflect the substance and level of performance outlined in grade specific educational standards adopted by the state board of education.

Any textbooks or other instructional materials that are to be used at the center, and are not on the state-adopted list, must be approved by the board.

Beginning classes

Schools may begin a course if textbooks or other materials are not available on the first day of class or if the delivery date is after the first two weeks of classes.
