

## **STAFF PARTICIPATION IN COMMUNITY ACTIVITIES**

*Code* **GBH** *Issued* **12/01**

---

Purpose: To establish the board's vision for staff participation in community activities.

Employees have a professional responsibility that extends beyond the work site and hours of service. Employees should welcome opportunities to interpret the center system to members of the community. Therefore, the board expects employees to be well informed concerning the educational philosophy, goals, policies, administrative rules and programs of the center so that employees can answer questions accurately and in a straightforward manner.
