

## **COMMUNITY RESOURCE PERSONS/SPEAKERS**

*Code* **IJOB** *Issued* **12/03**

---

**Purpose:** To establish the board's vision for the use of community resource persons/speakers in the center's programs.

The classroom use of resource persons from the community can be a valuable educational instrument. Resource speakers can help to eliminate artificial barriers that may exist between the center and the community.

The board encourages the use of community resource persons with special knowledge, talents or interesting vocations that will enhance the curriculum and broaden the knowledge of the students. Instructors should schedule these persons to correlate with subject matter units or specific programs.

The director must approve all visits by resource persons.

Adopted 3/18/85; Revised 12/9/03
