

INSTRUCTIONAL GOALS AND LEARNING OBJECTIVES

Code **IA** Issued **12/03**

Purpose: To establish the board's vision for instruction in the center.

The philosophy of education at the Barnwell County Career Center is to provide educational opportunities for those who desire occupational training to qualify for the world of work in business and industry and for service in the community.

The individualized, competency-based curriculum at the center offers a variety of instructional methods and learning materials and emphasizes responsibility. It also emphasizes the constant need for continuing education and the updating of acquired skills to keep pace with the rapid changes taking place in today's world. The student organizations emphasize leadership skills and good citizenship.
